

FOUNDED IN 2005, TP ENGINEERING (TPE) HAS TWO CLEAR GOALS: TO ASSIST THE TIMBER PRODUCTS NETWORK, INCLUDING TP PERSONNEL AND CLIENTS IN ROUTINE STRUCTURAL DESIGN ACTIVITIES, AND TO SERVE AS A PROBLEM-SOLVING ENTITY WITHIN THE INDUSTRY. Designed to best meet the structural design and inspection needs of clients, TP Engineering staff will work closely with you to ensure that any and all projects on your horizon are safely designed and economically configured within your time constraints. We know your industry; let our professional engineers and other quality-oriented staff assist you in meeting your needs.

BUILDING TOGETHER.

TPE staff has been responsible for the design, oversight and/or management of countless projects ranging from simple enclosures to multi-story buildings. Our industry expertise also extends into a multitude of other building materials, including steel and concrete. No matter your building material, if your project has structural design or inspection needs, our staff is ready to help.

TP Engineering is ready to join your team at any stage of the process. Whether you are a manufacturer, design professional, contractor or owner, our expertise can assist you in developing viable solutions.

Example services include:

- Residential and commercial building design
- Plan and specification reviews
- Construction monitoring
- Existing structure inspection and analysis
- Truss design
- Connection design
- Engineered product development
- Quality systems development

THE DIFFERENCE IS OUR SERVICE.

With the addition of TP Engineering, Timber Products Inspection offers a value-added service at a higher level than most other agencies. We keep our expertise in-house to provide you with the best and the brightest professionals, working together with you to improve your business. While our services are geared toward servicing members within the Timber Products network, TPE is ready to assist others as well. Should a customer, contractor or supplier need our assistance, we're ready to share our structural design expertise.

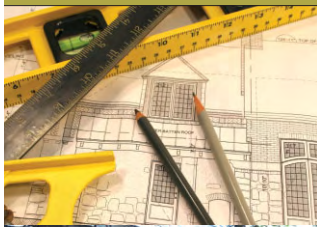

DO YOU NEED TIMBER PRODUCTS INSPECTION? In addition to our engineering services, we offer skilled expertise to the wood industry, architects, building code officials, contractors, individuals, lawyers, exporters, public/private utilities and government entities. Experience the Timber Products difference for yourself. GIVE US A CALL.

TIMBER PRODUCTS INSPECTION IS: the largest wood inspection agency in the nation; the third largest agency in the American Lumber Standard Committee (ALSC) Untreated Program; the largest agency in the ALSC Treated Program; the largest agency in the ALSC Wood Packing Material (WPM) Program; and the only ALSC approved grading agency that has representation in all regions of the United States.
